

# GUOTAI-HUARONG (POLAND) SP. Z O.O.

## OUR COMMITMENT TO SUSTAINABLE DEVELOPMENT AND SOCIAL RESPONSIBILITY

We believe that true business success is not only about financial performance, but first and foremost about responsibility to people, society and the environment. As an electrolyte producer, we are aware of our impact on the environment, so we aim to operate according to the highest ethical, environmental and quality standards.

### Our commitments:

We maintain and promote the highest ethical and quality standards at every stage of our supply chain. Cooperation with our suppliers is based on mutual respect and transparency.

We operate in accordance with the principles of sustainable development, constantly minimizing our impact on the environment. We invest in cutting-edge technologies that help reduce greenhouse gas emissions, reduce energy consumption and minimize waste.

We are constantly committed to maintaining the highest quality standards, as evidenced by certifications of international standards such as ISO 9001 (quality management), ISO 14001 (environmental management), ISO 45001 (occupational health and safety management) and IATF 16949 (automotive quality management).

### Why is this important to us?

Commitment to sustainability and social responsibility is the cornerstone of Guotai-Huarong (Poland) sp. z o.o. business. We believe that our actions — from environmental protection to ethical supply chain management to the highest quality standards — strengthen our company and contribute to building a better society and a healthier planet.
